## Supervised Training Sessions

Saks is always on the lookout for hundreds of style-conscious girls and guys who want to have the best hairstyles in town. We teach the latest cutting and colouring techniques and the modern classics as well as men's hairdressing, barbering and facial grooming at our Academies in London (Covent Garden), Glasgow, Cardiff and Darlington. 'Models' doesn't mean you have to be the next Kate Moss or Tyson Beckford - it just means that you need to be willing to 'model' a gorgeous new haircut that will be the envy of your friends, unless you bring them with you!

### What You Can Get

We need male and female models for NVQ training in cutting, styling, colouring, hair treatments and men's grooming. We also need male and female models for manicures, pedicures, facials, body massage, eye treatments, waxing, Indian head massage, tanning and advanced waxing techniques.

### Prices Range From £5

So, if you want a fabulous new hair cut, colour or beauty treatment, call the Saks Academies now to book an appointment.

### Catwalk Shows

If you do want to be the next Kate Moss or Tyson Beckford, then we're also looking for male and female cut and colour models to use in our catwalk shows showcasing the latest trends. You'll need to be open-minded about your hair and happy to get creative with the latest cut and colour techniques!

This is a fabulous opportunity to work with some of the best hairdressers in the industry.
