BODY CONTOURING WITH 3D LIPO

3D Lipo is an amazing alternative to liposuction offering a powerful new form of treatment in non-surgical fat removal, cellulite treatment and skin tightening for the face and body.

It's the 'holy grail' of body contouring and it's pain free with fast results and a huge hit with celebs and models alike who simply don't have the time for recovery from surgery.

The machine has several functions that we use to get the best out of your treatments.

CRYO (FAT FREEZING)

Highly recommended for the treatment of small pockets of fat such as 'baby belly'. It freezes fat cells without affecting other body cells. This method physically destroys the fat cells.

Customers are NOT required to exercise post treatment in order to metabolise the released fat.

Cryo body area	£250 • 60mins
Cryo chin area	£90 • 30mins

***3D LIPO uses 3 systems within a 60 minute treatment.
£100 per treatment or a course of 8 treatments £550***

CAVITATION

Uses a natural phenomenon based on low frequency ultrasound. The ultrasound produces a strong wave of pressure to fat cell membranes. A fat cell membrane cannot withstand this pressure and therefore disintegrates into a liquid state which is then disposed of via the body's natural metabolic processes.

RADIO FREQUENCY

Tightens the skin using radio frequency. This is highly effective for skin tightening improving overall skin tone.

DERMOLOGY

Dermology is highly effective at reducing cellulite in key stubborn areas and during this process we use vacuum rolling.

IPL HAIR REMOVAL

Using a beam of light to zap hair deep below the skin's surface, our medically certified state-of-the-art system gets rid of unwanted hair of any thickness, almost anywhere on the body.

Our highly trained IPL specialists are experts in treating unwanted hair, achieving up to 95% hair reduction in only 6-9 sessions. Not only is it clinically proven, it's quick and relatively pain free.
